

OSBA Fall Conference Honey Swap

This years OSBA Fall Conference will include a honey swap! Trade your honey with those around our great State of Ohio! You will be allowed to bring in ten (10) 8oz plastic jars of your own honey to get coupons to later pick out other beekeepers honey. We will only allow plastic for the swap so there is no chance of people dropping and breaking bottles of honey.

During Registration Friday evening or Saturday morning you will have to turn in your 8oz plastic labeled bottles. You will get coupons for the number of jars you bring. We will have time Saturday around lunch break to redeem your coupons and go 'shopping' for other beekeepers golden yumminess.

Rules:

1. Has to be your own honey from your state registered apiaries.
2. All bottles have to be labeled per label laws (including weight and your contact info).
3. Bottles have to be plastic and 8oz size.
